Vintage Wine Warehouse - 1630 Cody Avenue, Ridgewood Queens, NY 11385

Vintage Wine Warehouse Premium Coverage Plan

Does your homeowners insurance completely cover your wine in storage?

Is your valuable wine investment properly insured?

Is your wine collection covered for its full value against fire, theft, breakage, water damage and a host of other catastrophes?

Is this coverage provided without a deductible?

These are important questions to ask. If your wine is currently covered by a standard HO-3 form homeowners policy you should be aware that your homeowners policy probably does not provide the above specialty coverage for your wine collection. In addition your homeowners policy limits the amount of coverage provided for personal property stored away from your home to 10% of your personal property limit (i.e. if you have \$100,000 of personal property coverage you are limited to \$10,000 for property stored away from your home).

It is for these reasons that we highly recommend taking advantage of the new Premium Coverage Plan offered by Vintage Wine Warehouse. Under the Premium Coverage Plan your wine can be totally covered against loss by fire, theft, breakage, water damage, flood, earthquake, and spoilage due to mechanical failure. Prices for coverage are as listed below as follows:

1.85% of the value of the goods declared by the customer per year.

1.50% of the value of the goods declared by the customer per year when storing \$1,000,000 or more.

1.25% of the value of the goods declared by the customer per year when storing \$2,000,000 or more.

With wine prices around the world spiraling out of control we advise that you have your collection covered by Vintage Wine Warehouse for its full value.

If you currently have your wine properly insured we highly recommend you purchase an additional amount of coverage through Vintage Wine Warehouse so that your wine is covered for the difference in the deductible on your insurance policy. This will help cover your wine against loss for smaller incidents such as single bottle breakage.

Remember that \$10,000 worth of coverage is only \$185 a year!

A small price to pay for peace of mind.

Fees

1.85 of value of goods declared by customer per year

1.50% of value of goods declared by customer per year when storing \$1,000,000 or more

1.25% of value of goods declared by customer per year when storing \$2,000,000 or more

All changes in coverage declaration upon written request by customer only.

All boxes rendered to the Warehouseman for storage under the terms of Schedule B must include a packing slip/invoice/inventory sheet that discloses the contents of each case/package. If one is not included an "open box charge" may be implemented by the Warehouseman.

All cases/packages received for storage accounts under Schedule B will be entered into the inventory control by the Warehouseman based on

- The markings on the outside of the box
- An enclosed packing slip/invoice disclosing the contents of box
- Or the actual contents of the box.

(To be determined by the Warehouseman.)

As a requirement of the Premium Coverage plan clients who pre number boxes for storage and track their own inventory are required to send updated lists to Vintage Wine Warehouse upon any activity/inventory changes within the account. Failure to do so will jeopardize coverage in the event of a loss.

Due to the complexity of many wine labels the Warehouseman will not be responsible for errors made while recording an inventory of such cases/packages.

All boxes are subject to inspection to verify contents by the Warehouseman.

All charges for "coverage" must be paid in advance before the due date posted on the invoice.

Billing cycle for "coverage" is in six-month increments on January 1st and on July 1st

Failure to pay premiums within 30 days of billing date will result in cancellation of coverage.

A condition of any settlement will be that the customer shall relinquish title to the warehouseman of any salvage.

Unused portion of prepaid "coverage" will be returned to the customer as a credit on the following billing cycle or by a refund check on the closing of an account only.
